

Health and Safety Policy

This is the Health And Safety Policy Statement of Complete Treeworks LTD

Complete Treeworks recognises the importance of health and safety at work to protect workers, sub-contractors, the general public, and property.

The steps we take will help keep risk to an absolute minimum:

- Risk assessments are recorded on-site to identify potential hazards. This makes all workers aware of potential risk and helps set in place a 'safe working system'
-
- PPE Personal Protective Equipment is worn onsite
-
- All climbing and rigging equipment inspected routinely
-
- Complete Treeworks is fully insured with public liability insurance to £5million
-
- CTW can provide a Method Statement on request
-
- All staff are trained, qualified and hold relevant NPTC certificates
-
- First Aid kit provided
-
- All crew members have received First Aid training
-
- Work carried out to British standard 3998.
